

Hands off David Hicks!

Peaceful protest outside NSW Supreme Court

Wed August 3, 9am

184 Phillip St, Sydney

***The Australian government has launched proceeds of crime action
against David Hicks***

***This is a diversion from the real issue – the torture and unlawful detention
of an Australian citizen in Guantanamo Bay***

**David has never committed a crime – even the
former Prime Minister John Howard admitted this**

***Proceeds of crime legislation is designed to prevent criminals from profiting
from criminal activity. Using this law against David undermines the legislation.
It is also the government's attempt to take the focus away from the growing
call for a full and open investigation into the torture of David in Guantanamo
Bay.***
